To: Anyone who may Concern

Yuleba Minerals imported and installed a motor control board (MCB) from (Zhejiang Changkai Electric Co., Ltd.), one of the factory plant located in (Dongfang Road, Wengyang Town, Yueqing County, Wenzhou City, Zhejiang Province, China);

The MCB panel was based around the MNS model and included incoming and outgoing feeder panels, PLC and soft starter panels with allowance for future panels to be added to the existing panel.

This panel was our first order from Zhejiang Changkai Electric Co., Ltd we have been happy with their service and the MCB supplied and we intend to purchase future MCB's from Zhejiang Changkai Electric Co., Ltd.

Regards.
