Orthopedics / Fracture Management

Plaster of Paris Bandage 石膏绷带

(PRODUCT CODE NO.: 6000)

Plaster of Paris Bandage is a necessary product for fixation of all kinds of bone fractures, surgical operations, and orthopedic plastic.

Features and Benefits:

- High mass weight resulting in low plaster loss
- Fast setting
- Creamy texture
- Central plastic core
- Latex Free

Sizes: 5cm*2.7m 7.5cm*2.7m 10cm*2.7m 15cm*2.7m
20cm*2.7m 5cm*4.5m 7.5cm*4.5m 10cm*4.5m
15cm*4.5m 20cm*4.5m
And any other sizes according to the samples and customer's request.

Each bandage is well wrapped individually with a waterproof polybag, and the outer package is seaworthy and export standard cartons to keep best storing condition.

Orthopedic Cast Padding 医用衬垫

(PRODUCT CODE NO.: 6013)

The soft, 100% cotton material feathers and self-bonds to create a smooth undercast surface. It's hand-tearable and applies easily. Excellent cohesion allows for custom padding around bony prominences. Synthetic cast padding is a non-absorbent synthetic material that does not hold moisture against the skin. Its conformable stretch allows narrow widths around small anatomies without cutting and tearing.

Features and Benefits:

- 100% Cotton or 100% Sythetic or 100% viscose or Mixed materials
- Soft
- Hand-tearable
- Excellent cohesion
- Latex Free

Sizes: 5cm*2.7m 7.5cm*2.7m 10cm*2.7m 15cm*2.7m 20cm*2.7m
And any other sizes according to the samples and customer's request.

Each padding is well wrapped individually with a sleeve packing, and the outer package is seaworthy and export standard cartons to keep best storing condition.

Orthopedic Casting Tape 高分子绷带

(PRODUCT CODE NO.: 6020)

Fiberglass Casting Tape has substrate and advanced water activated polyurethane resin system which provides tack free properties. These allow ease of application and molding using standard examination gloves. And it provides extra rigid casts with a smooth surface and edges.

Polyester Casting Tape offers strength and durability. It features extensible yarns that provide excellent molding capabilities and a smooth cast surface that improves fit and patient comfort.

Features and Benefits:

- Smooth surface
- Rigid support
- Good conformability
- Excellent lamination
- Outstanding molding
- Latex Free

Sizes: 5cm*3.6m 7.5cm*3.6m 10cm*3.6m 12.5cm*3.6m 15cm*3.6m
And any other sizes according to the samples and customer's request.

Each tape is well wrapped individually with an aluminum foil bag, and the outer package is seaworthy and export standard cartons to keep best storing condition.

Stockinette 医用衬套

(PRODUCT CODE NO.: 6034)

Stockinette is designed for patient protection under plaster of Paris and synthetic casting materials. It is contained in an easy-to-use dispensing box for easy storage and handling.

Features and Benefits:

- 100% High grade cotton or Synthetic fibers
- Good conformability
- Latex Free

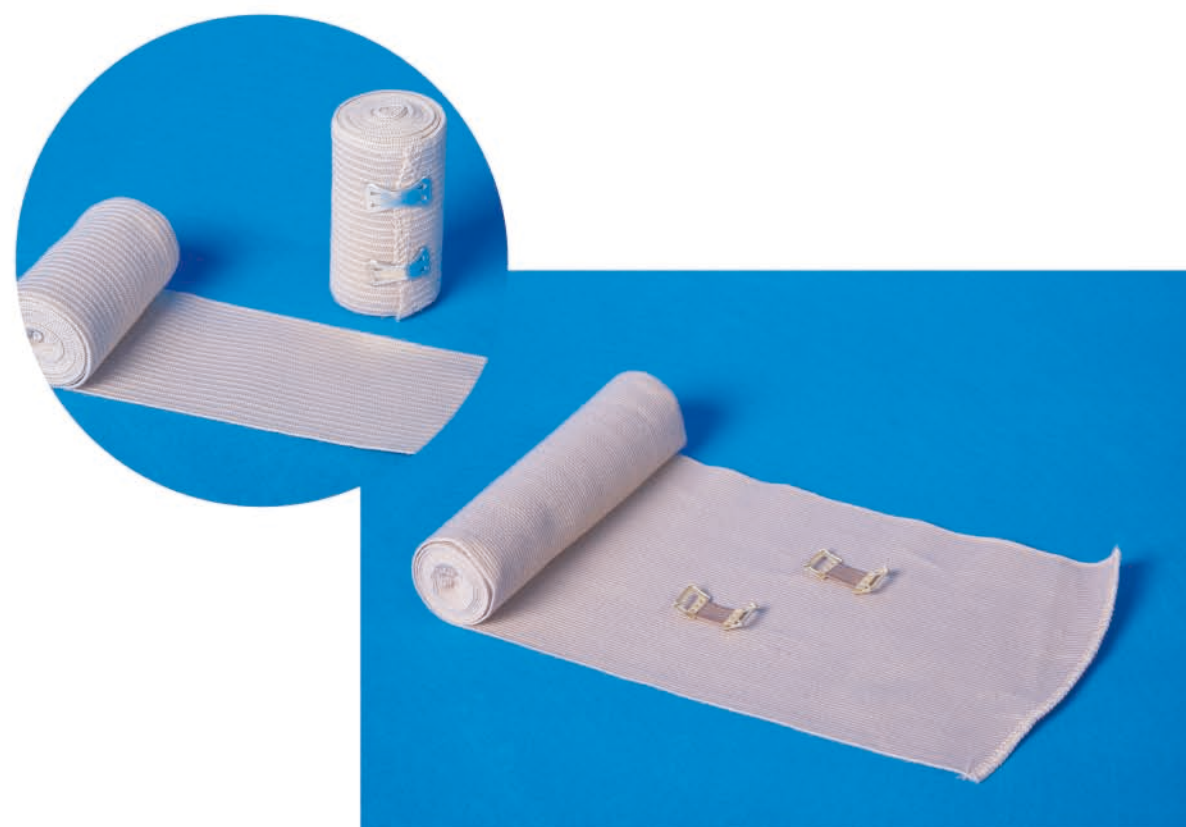

Sizes: 6.25cm*10m 6.75cm*10m 7.5cm*10m
8.75cm*10m 10cm*10m 12cm*10m
20.32cm*10m 32.38cm*10m
And any other sizes according to the samples and customer's request.

Each Stockinette is well wrapped individually in an easy-to-use dispensing box, and the outer package is seaworthy and export standard cartons to keep best storing condition.

Orthopedics / Physiotherapy - Bandages and Tapes

Rubber Elastic Bandage (Elastic Support Bandage) (橡筋绷带) 高弹绷带

(PRODUCT CODE NO.: 6043)

This non-adhesive bandage is made of high-quality fibers interwoven with rubber threads of high tensile strength, to provide controlled and consistent pressure.

Indications:

- Compression of heavily swollen sprains and strains
- Control of edema after removal of casts
- Orthopedic support
- Compression dressing
- Post-surgical dressing

Features and Benefits:

- High quality cloth for longer wear
- Non adhesive
- High compression for maximum support
- Long stretch

Sizes: 5cm*4.5m 7.5cm*4.5m 10cm*4.5m 15cm*4.5m
20cm*4.5m (Stretched Length)
And any other sizes according to the samples and customer's request.

Each Bandage is well wrapped individually with a waterproof polybag, and the outer package is seaworthy and export standard cartons to keep best storing condition.

Elastic Crepe Bandage 皱纹绷带

(PRODUCT CODE NO.: 6040)

This non-adhesive bandage is made of high-quality cotton yarns with spandex threads. It's a common crepe bandage used for wrapping.

Features and Benefits:

- Low costing
- Non adhesive
- Breathable
- Long stretch

Sizes: 5cm*4.5m 7.5cm*4.5m 10cm*4.5m 15cm*4.5m 20cm*4.5m (Stretched Length)
And any other sizes according to the samples and customer's request.

Each Bandage is well wrapped individually with a waterproof polybag, and the outer package is seaworthy and export standard cartons to keep best storing condition.

Conforming Elastic Bandage (PBT Elastic Bandage) PBT绷带

(PRODUCT CODE NO.: 6042)

This non-adhesive bandage is made of high-quality polyester yarn with PBT threads.

Indications:

- Outdoors practice
- First aid kit or box use
- Soft tissue damage

Features and Benefits:

- Soft and thin
- Non adhesive
- Permeable
- Long stretch

Sizes: 5cm*4.5m 7.5cm*4.5m 10cm*4.5m 15cm*4.5m 20cm*4.5m (Stretched Length)
And any other sizes according to the samples and customer's request.

Each Bandage is well wrapped individually with a waterproof polybag, and the outer package is seaworthy and export standard cartons to keep best storing condition.

Cotton Crepe Bandage 全棉皱纹绷带

(PRODUCT CODE NO.: 6041)

This non-adhesive bandage is made of 100% cotton yarns which is strongly recommended to cotton users.

Features and Benefits:

- 100% cotton
- Non adhesive
- Breathable
- Long stretch
- Latex Free

Sizes: 5cm*4.5m 7.5cm*4.5m 10cm*4.5m 15cm*4.5m 20cm*4.5m
(Stretched Length)
And any other sizes according to the samples and customer' s request.

Each Bandage is well wrapped individually with a waterproof polybag, and the outer package is seaworthy and export standard cartons to keep best storing condition.

Absorbent Gauze Bandage 织边纱布绷带

(PRODUCT CODE NO.: 6050)

This non-adhesive and non-stretched bandage is made of 100% cotton yarns which is strongly recommended to cotton users.

Features and Benefits:

- 100% cotton
- Non adhesive
- Breathable
- Latex Free

Sizes: 5cm*5m 7.5cm*5m 10cm*5m 15cm*5m 20cm*5m
And any other sizes according to the samples and customer' s request.

Each Bandage is well wrapped individually with a waterproof polybag, and the outer package is seaworthy and export standard cartons to keep best storing condition.

Cohesive Elastic Bandage 自粘弹性绷带

(PRODUCT CODE NO.: 6060)

This cohesive elastic bandage provides non-slip light support and compression. Because of its unique construction, it adheres to itself and not to skin, aiding in patient comfort. No clips or fasteners required. Available in latex and latex free versions.

Features and Benefits:

- Adheres only to itself
- Non-slip support
- Breathable
- Hand-tearable (Non-voven type only)
- Latex Free (Cotton Type only)

Sizes: 5cm*4.5m 7.5cm*4.5m 10cm*4.5m 15cm*4.5m 20cm*4.5m (Stretched Length)
And any other sizes according to the samples and customer' s request.

Each Bandage is well wrapped individually with a waterproof polybag, and the outer package is seaworthy and export standard cartons to keep best storing condition.

Adhesive Elastic Bandage 涂胶弹性绷带

(PRODUCT CODE NO.: 6120)

This porous elastic adhesive bandage is made from a high-quality extensible cloth, providing firm controlled compression and strong support. The reliable adhesive keeps the bandage firmly adhered even throughout lengthy treatment. The yellow central line on the product permits accurate overlap during application.

Indications:

- To retain bandage in irregular areas
- Firm support for injured joints
- To control effusion and swelling
- Retention of wound dressings over irregular areas and requiring compression
- Support bandage for sprains and strains

Features and Benefits:

- High adhesive properties
- Provides strong compression and long term support
- Water repellent
- Air permeable
- Thinner substrate

Sizes: 5cm*4.5m 7.5cm*4.5m 10cm*4.5m 15cm*4.5m 20cm*4.5m (Stretched Length)
And any other sizes according to the samples and customer' s request.

Each Bandage is well wrapped individually with a waterproof polybag, and the outer package is seaworthy and export standard cartons to keep best storing condition.

Kinesio Tape 肌貼

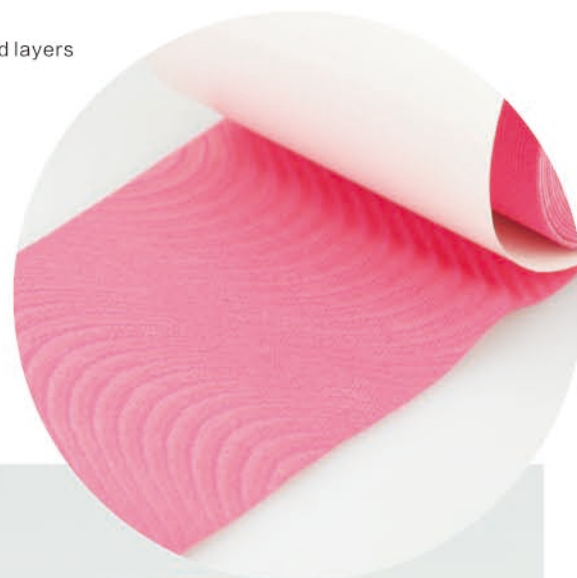

(PRODUCT CODE NO.: 6130)

Our Kinesio Tape continues to provide the famous traditional wave design that has set the standard practitioners. From elite athletes and weekend warriors to neurological and pediatric patients with high quality and consistent results.

Features and benefits:

- Finger Print Design—brings Nano—touch stimulation to epidermis and layers
- Finger Print Design—Micro Grip
- Finger Print Design—Enhances EDF
- Cotton—Quality & Weave Process
- Utilizes a high grade cotton for breathability and comfort
- Water proof resistant
- Hypoallergenic and latex free for all patient populations

Sizes: 1" , 2" , 3" , and Bulk Rolls available
Any other sizes according to the samples and customer' s request.

Net Elastic Bandage 网状弹性绷带

(PRODUCT CODE NO.: 6070)

This is designed to serve as a secondary dressing, applying gentle pressure to keep bandages or other medical devices securely in place without adhesive tape. Ideal for securing burn or post-op dressings, hot or cold packs, IV tubes, incontinence pads and decubitus ulcer dressings. Easy to customize. Allows maximum air-flow. Available in a wide range of sizes.

Features and Benefits:

- Easy to customize
- Allows maximum air-flow.
- Available in a wide range of sizes

Sizes: #0.5 (0.8CM×25M) #1 (1.7CM×25M) #2 (2.0CM×25M) #3 (2.3CM×25M)
#4 (2.7CM×25M) #5 (3.0CM×25M) #5.5 (3.5CM×25M) #5.8 (4.2CM×25M)
#6 (5.8CM×25M) #7 (7.2CM×25M) #8 (8.5CM×25M) (Stretched Length)
And any other sizes according to the samples and customer' s request.

Each Bandage is well wrapped individually with a paper box, and the outer package is seaworthy and export standard cartons to keep best storing condition.

First Aid Dressings

Paraffin Gauze (Non-Adherent Dressing Impregnated with Paraffin) 凡士林纱布片

(PRODUCT CODE NO.: 6091)

This is a sterile paraffin tulle gras dressing made from open weave gauze. The gauze has interlocking threads which minimise fraying when the dressing is cut to shape.

Indications:

- For exuding wounds such as
- First and second-degree burns
- Lacerations and abrasions
- Leg ulcers
- Donor and recipient skin graft sites

Features and Benefits:

- Low-adherent and soothing to minimize pain at dressing change
- Supports a moist environment to help healing
- Allows exudate to drain freely into an absorbant secondary dressing
- Sterile (except for dressings not individually wrapped)
- Latex Free

Sizes: 5cmx5cm 7.5cmx7.5cm 10cm*10cm 15cmx2m (roll)
And any other sizes according to the samples and customer' s request.

Each Paraffin Gauze is well wrapped individually with an aluminum foil bag, and the outer package is seaworthy and export standard cartons to keep best storing condition.

First Aid Bandage 急救绷带系列

(PRODUCT CODE NO.: 6081)

This first aid bandages are made from conforming bandage and absorbent pad or gauze bandage and absorbent pad which allows full freedom of movement, lets the skin breathe and will dry quickly if wet. Comfortable and safe for the patient, it will stay in place for the duration of treatment.

Indications:

- To protect minor wounds like cuts, lacerations and abrasions
- After blood drawing or vaccination

Features and Benefits:

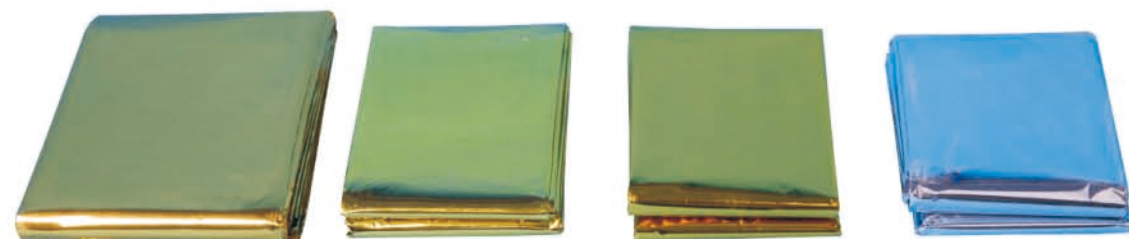

- Highly breathable
- Permeable to air and water vapour
- Highly absorbent, low adherent wound pad
- Latex Free

Sizes: 5cmx4.5cm 7.5cmx4.5cm 10cm*4.5cm
And any other sizes according to the samples and customer' s request.

Each Bandage is well wrapped individually with waterproof polybag, and the outer package is seaworthy and export standard cartons to keep best storing condition.

Rescue Blanket 急救毯

(PRODUCT CODE NO.: 6110)

This Rescue Blanket is mainly used for camping, mountain climbing, fire fighting, rescue and military to keep warm and reflect lights, windproof and waterproof, dry and clean. Gold/Silver type and Silver/Silver type for choice.

Features and Benefits:

- Small-size
- Light-weight
- Heat preservation
- Easy to carry
- Made of durable and insulating Mylar material

Sizes: 140cmx210cm 160cmx210cm

And any other sizes according to the samples and customer's request.

Each Blanket is well wrapped individually with waterproof ziplock polybag, and the outer package is seaworthy and export standard cartons to keep best storing condition.

Gel

Ultrasound Transmission Gel 导声胶/医用耦合剂

(PRODUCT CODE NO.: 6100)

Ultrasound transmission gel is a type of conductive medium that is used in ultrasound diagnostic techniques and treatment therapies. It is placed on the patient's skin at the beginning of the ultrasound examination or therapy. The transducer, which is the device used to send and receive sound waves, is then placed on top of it. Ultrasound gel is also used with a fetal Doppler, which can be employed to allow parents and doctors to listen to the heart beat of an unborn child.

Method of Application:

During the ultrasonic examination, squeeze the coupling gel and apply it directly on the diagnostic position. Upon scanning by the ultrasonic instrument, a clear image may be acquired. After completing the examination, wipe out the remaining coupling agent with tissue paper.

Features and Benefits:

- Better sound transmission
- Distinctive image display
- No toxic and irritant effect
- No damage and corrosion to the ultrasound probe

Sizes: 250ML 5L (With 250ml complementary bottle)

And any other sizes according to the samples and customer's request.

Each gel is well filled individually into a plastic bottle, and the outer package is seaworthy and export standard cartons to keep best storing condition.

ECG Gel 导电胶

(PRODUCT CODE NO.: 6101)

ECG Gel is used in electrodes without gel, ECG latches and pendant switches in any ECG and exertion applications. It allows ECG waves to be transferred to the device in a lucid manner. It can be used with all kinds of ECG and support applications gel-free electrode.

Features and Benefits:

- Hypoallergenic, non-irritating
- Water soluble, non-staining easily cleanable
- Free from formaldehyde and salt
- No toxic effects
- Non odorous
- No damage to the probe
- No air bubble

Sizes: 250ML 1L 5L (With 250ml complementary bottle)
And any other sizes according to the samples and customer' s request.

Each gel is well filled individually into a plastic bottle, and the outer package is seaworthy and export standard cartons to keep best storing condition.
