

EXPO - TRACK

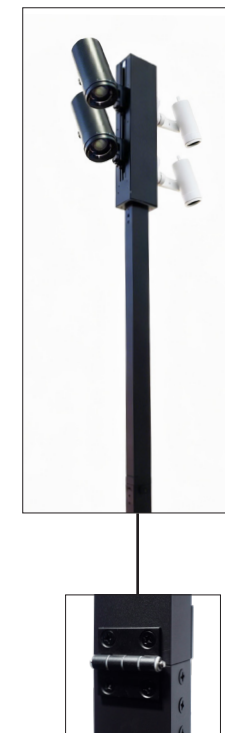

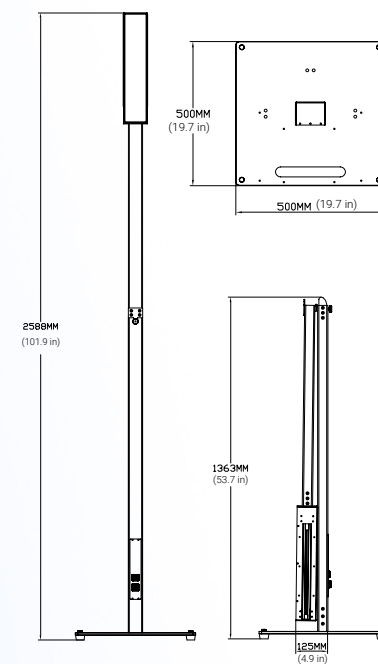

EXPO - TRACK

Key features:

- Designed for high-end brand exhibitions, pop-up displays, and accent lighting of featured products or zones
- Two-section folding design; extended height 2.58 m (custom three-section version available, height 3 m and above)
- Supports a combined fixture load of up to 300Watt
- Equipped with standard European 4-wire track, compatible with all Hotion track-mount fixtures
- Versatile and flexible — compatible with Hotion track fresnel lights, track spotlights, and other track-mount accessories
- Foldable structure for compact storage; fits neatly into a standard flight case for transport
- No scaffolding required; quick to set up and safe to operate
- Clean cable management — all wiring routed internally through the base; no exposed cables
- Compatible with Hotion portable power station NEXUS 300 or other portable battery units — fully wireless operation, no wall outlet needed
- Can also connect directly to a floor-level power outlet where available
- Sleek, minimal design; available in white, black, or silver to complement your brand environment
