

Strobe 1000 RGBW IP

IP65 Strobe light

The Strobe 1000 RGBW IP is a high-performance RGBW strobe light designed specifically for entertainment venues such as stages, bars, discos, clubs, and more. It uses 1320*0.8W RGBW LED beads, providing rich color expression and powerful dynamic effects. The lighting fixtures support multiple control modes, including DMX512, main and auxiliary machine modes, and automatic mode, to meet the needs of different scenarios. The lighting fixtures also have temperature control protection function. When the temperature exceeds the safety threshold, the brightness will automatically decrease to ensure the safe operation of the equipment.

Key features:

- 1320 RGBW LED beads, color temperature 6500-7500K, bright colors, high brightness.
- Supports DMX512, main and auxiliary machine modes, and automatic mode, with flexible operation.
- Built in sound control program, synchronized lighting effects can be achieved in primary and secondary machine modes.
- 8 independent control modules, programmable to achieve special effects such as chase and gradient.
- IP65 waterproof rating, suitable for outdoor environments.

Application:

- Stage
- Concert
- Theater
- Bar

Technical Data

Power supply:	AC100 - 240V, 50/60Hz
Power consumption:	1000W
Light source:	1320pcs × 0.8W RGBW LED
Colore:	RGBW
Power connection:	PowerCON in & out
Signal connection::	3 pin XLR in & out
Control channels:	6/9/38

Control mode:	DMX512, RDM, Master slave, voice, Auto
CCT:	6500K-7500K
Housing:	Colour black
Package size:	560x 230 x 320 mm
N.W.:	11.5 kg
Accessories(incl.):	Power cable, Safety cable
Environment:	IP65
