IP BAR 1810 RGBW is a multi-functional high-performance LED light bar designed for stage lighting, architectural lighting and dynamic visual effects. Equipped with 18pcs of 10W high power LED light source, combined with RGBW 4-colour mixing system, it can present an ultra-wide colour gamut and accurate white light performance, which can easily meet the colour requirements of complex scenes.

Key features:

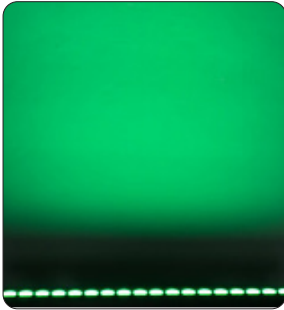

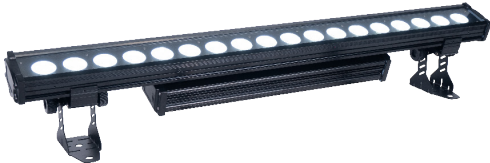

- 18*10W LED
- 25°beam angle
- RDM, Master-Slave, Self-propelled, Voice, DMX
- Flicker-free, PWM frequency adjustable
- Compatible with 4/8CH DMX channels, flexible and adaptable to different programming needs
- IP65 dustproof and waterproof body, with IP rated power and signal cables, no fear of harsh outdoor environments

Application:

- Outdoor stage
- Theatre, church
- Fashion show
- Museum
- Exhibition
