

G3 STROBE BAR

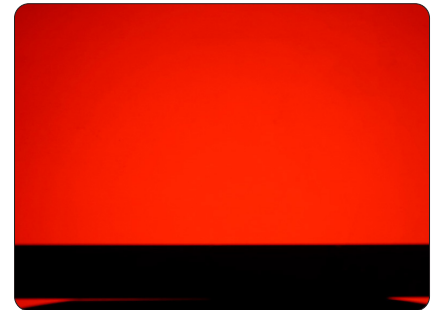

The G3 strobe bar is a high-performance LED strobe light bar that supports RGBW full-color mixing and adjustable color temperature white balance. This lighting fixture is suitable for professional stage, studio, concert, music festival, theater, and other scenarios with high lighting requirements. It supports multiple control protocols such as DMX512, self-walking, and master-slave modes, offering exceptional flexibility and scalability.

Key features:

- RGB + white light
- Built-in 10 strobe effects
- Support independent adjustment of the strobe duration
- Color temperature adjustment: 2000K–10000K
- Supports independent RGB and white light effect modes
- Built-in 46 color macros
- Four dimming curves (linear, square, inverse square, S-curve)

Application:

- Mobile performance
- Theater
- Stage
- Studio

Technical Data

Power supply:	AC100-240V, 50/60Hz	Control channels:	12CH / 16CH / 27CH / 44CH / 138CH / 166CH / 269CH / 297CH / 100CH
Light source:	300W	Control mode:	DMX ,RDM, Auto, master-slave,
Color:	RGB+W	Housing:	Colour black
Color temperature:	2000K - 10000K	Size:	800 x 220 x 160mm
Power connection:	Power in & out	N.W.:	9.5kg
Signal connection:	3-pin XLR in & out	Environment:	IP65
