GlobTek, Inc. www.globtek.com 186 Veterans Drive, Northvale, NJ 07647 Tel. (201) 784-1000 Fax (201) 784-0111	Drawing Title: INSERT SLEEVE, SPACER, FOR IEC 60320 C13 OR C17, BLACK, TO CREATE A TIGHT FIT BETWEEN A POWER CORD AND RECEPTACLE DUE TO IEC 60320 TOLERANCES	
	Model No. Power Cord	
	Part No./Ordering No. C13C17-SLEEVE-BLKR(R)	Rev A

Warning: When removing connector with this sleeve included, take care not to damage the inlet when removing the connector. To remove the Sleeve that remains in the inlet after cord extraction, ensure the power cord is not plugged into power and use a non-conductive tool to extract.

Installation instructions: Fully insert cord to avoid arcing between conductors. Without a sleeve, 9 lbs of force pull are required to extract a C13 connector from a C14 receptacle. When using this sleeve the average is 30 lbs of force pull to extract a C13 connector. Repeated insertions and extractions may reduce the force pounds required to extract a C13 Connector over time.

For proper performance, use on GlobTek power cords only.
