

Title of Change:	CS3361 Datasheet Update	
Proposed first ship date:	10 April 2015	
Contact information:	Contact your local ON Semiconductor Sales Office or <bill.fontes@onsemi.com>	
Type of notification:	ON Semiconductor considers this change approved unless specific conditions of acceptance are provided in writing. To do so, contact <PCN.Support@onsemi.com>.	
Change category(s): ☐ Wafer Fab Change ☐ Manufacturing Site Change/Addition ☐ Product specific change ☐ Assembly Change ☐ Manufacturing Process Change ☒ Datasheet/Product Doc change ☐ Test Change ☐ Material Change ☐ Shipping/Packaging/Marking ☐ Other: _____		
Sites Affected: ☐ All site(s) ☒ not applicable ☐ ON Semiconductor site(s) : ☐ External Foundry/Subcon site(s):	<u>Site 1</u> 	<u>Site 2</u>
Description and Purpose: The CS3361 datasheet mistakenly refers to a "Stator Power Up" feature which actually does not exist for this device. The error was introduced in 2002 during a mass conversion of datasheets because this device is very similar to another device that does have this feature. The datasheet is being updated to remove references to this feature. Also, ordering information for the pb-free version is being added at the same time. For updated datasheet please see the ON Semiconductor website. Link to CS3361 Datasheet		
List of affected Standard Parts: CS3361YDR14G
