QR/P6 SERIES

QR/P6 SERIES RECTANGULAR MINIATURE MULTI-CONTACT RACK/PANEL CRIMP CONNECTOR

General

The QR/P6 Series are miniaturized versions of the QR/P and QR/P1 series. Rectangular multi-contact rack and panel connectors for plug-in connection. Available in 6, 12, 16, and 24 contacts for highly efficient and reliable crimp termination.

Features

(1) Offers smooth insertion/extraction and stable contact pressure through point-blade contact, and has ample allowance for the deviations in contact length specific to plug-in connection.
(2) Miniaturized by separating power contacts from signal contacts.
(3) Signal contacts in the housing are located in pitches of 2.54mm. The opposed contacts at one end of the connector are spaced 6.9mm so that they can withstand high voltage. Can be used for power supplies. Uses flame-retardant insulator (UL94-0).
(4) Miniaturized using guide pins integral with the insulator.
(5) Ensures smooth insertion and extraction, and designed to be fixed with stepped screws on a panel or rack.
(6) The female housing is designed to allow the contact part of the female terminal to be below the mating surface, meeting the Finger Test Requirements (complying with UL 1950)
(7) The connectors of the series have passed UL, CSA and TÜV standard.

Application

PPC, Transmission/Reception equipment, Data Communication, equipment, Vending machines, Measuring Instruments, Automation equipment, Switch-boards.

Main Specification

General ratings of QR/P6		
Contact Resistance	Power terminal	10mΩ or less at DC1A
	Signal terminal	15.mΩ or less at DC1A
Insulation Resistance	5000MΩ or less at DC 500V	
Withstand Voltage (for 1 min.)	Power unit	AC 1000V
	Signal unit	AC 500V
Rated current	Power terminal	10A
	Signal terminal	1A
Rated voltage	AC 120V	

Main materials		
Insulator	PBT resin	Black
Terminal	Phosphor bronze	Selective Gold plating with nickel underplating

＊UL94V-0

QR/P6 ratings approved by safety standards					
Safety standard			UL	CSA	TÜV
Operating temperature range			−10～+60℃		
Rated voltage	Power supply unit		AC 250V		AC250V
	Signal unit				AC125V
Rated current	AWG#14		10A	10A	10A
	AWG#16			8A	
	AWG#18		5A	5A	5A
	AWG#20		3A	3A	2.5A
	AWG#22				1A
	AWG #24	Power supply	3A	3A	1A
		Signal unit	1A	2A	
	AWG#26		1A	1A	1A
	AWG#28				——
